

# Eastham Fire Department & Rescue Services

2520 State Highway, Eastham, MA  
02642

The Eastham Fire Department sponsors the “File of Life” program. It was designed to provide critical medical information about you for emergency medical personnel responding to your home.

It is important that the necessary medical information, including a list of prescription drugs you may be taking, is accessible. You and your family will have peace of mind knowing you will receive the best possible care.

If you are interested in receiving a File of Life for your home, or you have a relative or friend within the community that could benefit from a File, please call the Fire Department at 508-255-2324. The program is free and all necessary forms will be supplied by the Fire Department.
